U. S. Senator Telegraphs His Opinion to State Legislature.

(Continued from Page 1.)

SAN FRANCISCO, Feb. 23.—Warren Olney, Jr., one of the leaders of the San Francisco bar, in a statement expresses the opinion that strong reasons can be given to justify the application by the people of the recall to legislative and executive officers which do not warrant the recall of the judiciary at this time. Mr. Olney sets forth as follows the chief reasons which, in his opinion, show that it is not for the best interests of the State to apply the recall to judges: "I believe that the recall should not be applied to the judiciary, at least at the present time. My chief reasons are two.

"First, the functions of a legislative or executive official are essentially different from those of a judicial official, and the reasons for applying the recall to the first two classes does not apply to the third. A legislative or executive official is elected for the purpose of carrying out the will of the people in matters of policy, either in the enactment of legislation or in the administration of the government.

JUDGE SHOULD HAVE NO POLICY.

"But a judicial officer, when he is in the highest sense a servant of the people is not elected to carry out any matter of policy. He is the representative of the people to decide the rights of litigants on exactly and impartially as human nature will permit, not according to the law as it is, but according to the law as it ought to be. The people, through their proper representatives for that purpose, the legislature, should change it and make it what it ought to be.

"So far from the recall of the judiciary acting to protect the people, I believe it more apt to work for subverting their liberties. The reason is that the application of the recall to the judiciary will inevitably strengthen the influence of the judges to decide the law to be applied. It really is that what they think the people want it to be, in other words it will induce them, under the guise of judicial decision, to make new law to fit the particular occasion.

RECALL AN EXPERIMENT

"Second, the recall is a new governmental device which has not yet passed the stage of being an experiment. It has not yet been finally tested so that we can be positive that it is good. It promises well, and in the few cases in which it has been applied the results have been very happy, so much so that I am inclined to think the experiment worth our own trying as to legislative and administrative officers, whose functions are largely concerned with matters of policy. Nevertheless, it takes years to test thoroughly any new governmental device, and while we should experiment and try for better methods, we should do so carefully and step by step."

noted that unless the majority acted he would offer resolutions calling upon all governors and legislatures on the coast to memorialize Congress.

THUNDER OF PEOPLE.

"Not only that," he cried, "I promise you that unless we get action there will be a mass meeting of people of this state, whose thunderous voice will reach even the President and compel him to stop fiddling upon the people of this nation this treaty."

"Saturday night there will be 300,000 people on the streets of San Francisco celebrating the coming of the Panama-Pacific Exposition. We can have the mass meeting then."

Notify the Legislature Treaty Favors U. S.

SACRAMENTO, Feb. 23.—Further assurance that the interests of California are not jeopardized by the new Japanese treaty were received by the Legislature today in a telegram from United States Senator George C. Perkins.

He has been connected with the Department of the Interior, of which Senator Leroy Wright, chairman of the Senate committee on federal relations, and is even more explicit than

# THE ARCADIAN'S IS NOVELTY; BOHEMIAN FLAVOR AVOIDED

RUSSON and CHILDS, with "The Arcadians" coming to the Macdonough.

In many respects "The Arcadians," the musical comedy which Charles Frohman will present at the Macdonough Theater, commencing Monday, Feb. 27, is a novelty. In "The Arcadians" it is promised we shall enjoy a bright, tuneful musical comedy that is devoid of any reference to the favorite Bohemian of Bohemia. It comes here with the same cast as was seen at the New York theater during the present season and includes Gilbert Childs, Marie Shields,

Johnny Osborne, Vernon Davidson, Alice Russon, Moya Manning, Edward Morris and Ruth Thorne, and all others of the army of fun-makers.

The plot opens in the land of Arcadia, where a king and queen, and the advent there of a young man, a London caterer, with a propensity to drink. The young king of Arcadia is a well-to-do and his missionary visit to London is ample excuse for three hours of exquisite humor, the most charming melody, and the daintiest of stage pictures.

the one sent last night by Senator Flint. The text is as follows:

"The proposed Japanese treaty contains practically the same provisions as the present one, the difference being in our favor, that it may be canceled upon six months' notice."

KNOX GIVES PROMISE.

"The Secretary of State informs us that the Japanese ambassador gives every assurance that there will be no immigration of laborers into the United States, as they cannot leave without Japanese passports, lacking which, under our laws, they may be deported. I think the treaty will meet the approval of our people when they understand its provisions."

Another telegram from Senator Flint was received by Senator Wright in the course of the morning session and read to the Senate. Its text is as follows:

"For the reason that the treaty has not been made public and has only been considered by the Senate in executive session I am not in position to advise you as to the provisions of the treaty, but can assure you that the exclusion of laborers is effectively provided for."

ADOPT RESOLUTION.

The Assembly, by a unanimous vote, adopted the resolution introduced by Senator Campbell yesterday, with Japan is a grave mistake," said Governor Marion E. Hay, "and I trust that the United States will refuse to ratify the agreement until such a vision is lifted. The west is unalterably opposed to Japanese immigration and rightly so. We cannot afford to throw down the bars to Japanese immigration. It is an extremely dangerous proposal and would prove ruinous in the end. I trust that the government will not commit the folly of such a policy."

BRANDS IT MISTAKE.

OLYMPIA, Wash., Feb. 23.—"The elimination of the restriction on immigration is a grave mistake," said Governor Marion E. Hay, "and I trust that the United States will refuse to ratify the agreement until such a vision is lifted. The west is unalterably opposed to Japanese immigration and rightly so. We cannot afford to throw down the bars to Japanese immigration. It is an extremely dangerous proposal and would prove ruinous in the end. I trust that the government will not commit the folly of such a policy."

HALE TO FIGHT.

WASHINGTON, Feb. 23.—Secretary of State Knox today talked with Senator Hale concerning the tariff feature of the new treaty and as a result it was stated that the latter would withdraw his objections to ratification.

McLaughlin to Be Labor Commissioner

SACRAMENTO, Feb. 23.—Governor Johnson today stated his intention to appoint as labor commissioner John P. McLaughlin of San Francisco. In speaking of the appointment the governor said that McLaughlin had been notified and had expressed his willingness to accept the position, and the appointment would undoubtedly go through tomorrow. McLaughlin is a supervisor in San Francisco.

Governor Johnson spoke of his appointment today as "an honest man of unquestioned integrity and sound courage."

He has been connected with the Teamsters Union of San Francisco, of which Governor Johnson was at one time the legal counsel.

HUBERT WOODS GOES ON HIS SECOND TRIAL

Hubert Woods was placed on his second trial this forenoon before Judge William S. Wells, sitting in the criminal department of the Superior Court, for burglary. He is colored. His first trial resulted in a disagreement by the jury over a verdict. Attorney Edward L. Gehring is defending his prisoner, while Deputy District Attorney Smith appears for the prosecution.

TO INVADE MEXICO.

SACRAMENTO, Feb. 23.—For the purpose of forming a band of 100 recruits to the Mexican Insurrectors force and evidently in ignorance of the neutrality laws, some local Italians are planning to call a meeting and call for volunteers for enlistment with the intention of starting toward the border line to aid their fellow insurgents. J. V. Riolo and a committee are working on the scheme and unless they are stopped by the authorities they will begin at once to prepare for a journey southward.

Riolo and his comrades, some of whom are veterans of the revolution under Garibaldi, the famous Italian liberator and several of whom served in the campaign of the Turco-Grecian war, are planning to present to the insurgent cause a well-organized company, offered by seasoned campaigners.

OFFERED COMMISSION.

Riolo, it is said, has been offered a commission in the insurgent force, due to his military training as an officer in the Italian army before his emigration to the United States.

The Italians have issued a call to the sympathizers with the revolution to meet at Fourth and K streets tonight to plan for receiving the marching "workers" and to provide for food and shelter while they are in Sacramento.

TRAIN NOT HEARD FROM.

EL PASO, Tex., Feb. 23.—The Mexican National freight train, consisting mostly of coal cars, has not been heard from and it is believed to have been captured by insurgents. The train left Juarez Tuesday.

Preparations were being made in Juarez today to send 500 cavalry south on a train to meet the insurgents.

The cavalry returned only last night from Guadalupe, east of Juarez.

FREE PRISONERS.

MEXICALI, Mex., Feb. 23.—On orders of the War Department, Captain Babcock, commanding the United States troops at the border line here, freed all prisoners of war today. These include Fernando Hernandez, said to be paymaster of Gen. Leyva's army and who was brought across the line during the recent battle while suffering from heart trouble, and made prisoner by the American troops. Through Holmes, a writer, charged with assisting the Mexican rebels, and five Mexican federal soldiers who sought asylum on the border line while the recent fight was at its hottest. The latter left on horses for Campo, 63 miles west of Mexicali, en route to rejoin Governor Vega's recently routed forces. The American consul, the Mexican consul the men procured passports from the American custom officials and will parallel on the American side the route taken by the rebel vanguard of the rebel army which left here yesterday on its march to Ensenada.

TO REJOIN VEGA.

The five departing federals said they had received orders to rejoin Vega at Ensenada, and that they expected to go by way of Tia Juana to warn that place that the rebels expect to attack it on their way to Ensenada.

The insurgent advance guard, heading the march on Ensenada, are armed with new modern rifles and are said to have soft-shod mushroom helmets. According to the American army officers, the use of these helmets constitute a violation of the Geneva convention.

About half of the insurgent army marched in Mexico. Small detachments are departing under cover to prevent an observation of their movements. Gen. Leyva intends to keep part of his army here for the purpose of attacking Mexicali as a base and with the hope that the further enlistment of sympathizers will swell the force in the field to a sufficient size to assure success of an attack on Ensenada.

SALARY INCREASE TO BE DEBATED

Haviland's Protest Will Be Considered Tomorrow at Sacramento.

SACRAMENTO, Feb. 23.—At a meeting of the Alameda county delegation tomorrow noon, there will be a reopening of the salary question of Alameda county officials to consider the objection to the recent advance of salaries and fees of County Surveyor Haviland.

The latter says the recent action of the delegation does not give him enough money to keep him alive. Some of the members of the delegation favor placing the office of surveyor on a salary basis so that the records of same may become county property.

Aged Poet Reported To Be Resting Easily

The condition of Jacquelin Miller, the aged "poet of the Sierra," was pronounced by his physician to be the same as yesterday when he was reported to be holding his own. He rested easily all night and surprised his physicians today by a display of vitality that was considered remarkable.

No attempt will be made to remove the patient from Pecos hospital to his home in the heights for several days at least.

# BOARD OF WORKS DENY APPLICATION

Application for Progressive Payments on Quay Wall Is Turned Down.

On the ground that several thousands of dollars have been expended on a trench for the 2000-foot quay wall along First street and the estuary now being constructed, while according to the terms of the contract and specifications no payment is yet due from the city, Hansbrough Bros., the contracting firm, asked the Board of Public Works this morning to modify the contract. The contractors asked that progress payments be made on the work already done at the foot of Market street.

City Attorney Ben F. Woolner declared that in his opinion the contract cannot be altered in any way by the Board of Works without exceeding the legal powers of the city. Attorney Hansbrough for the contractors, stated that the contract before it had been assigned to him by the contractor's firm, and that the original bidders to whom the contract was awarded, and therefore was unfamiliar with all its terms.

CONTRACT ASSIGNED.

The contract for the quay wall was let after bids were received last September. The Cartera company bidding \$222,000, a sum so far below that of the next lowest bidder that it was freely predicted the contract would be awarded without losing money. The contract was assigned some weeks later to the Hansbrough concern of San Francisco.

The board decided it could make no alterations in the contract. It is probable that a friendly contest will be commenced in the courts to test the possibility of collecting progress payments from the city.

# MAY FINE, BUT MAY NOT COLLECT

\$5000 Lot of Money to Locate on Any One Reporter at Any One Time.

SACRAMENTO, Feb. 23.—The Senate today passed a bill reported from the judiciary committee and championed by Senator Boynton, intended to make the secrecy of grand jury proceedings inviolable. Any reporter who reports or any editors who publishes or allows to be published any proceedings or alleged proceedings of a grand jury, which are not in the public record, is liable to penitentiary imprisonment for two years and a fine of not more than \$5000. Under the bill the same penalties could be visited upon the copywriter, proof-reader and perhaps the printer, compositor and the publisher of the newspaper, periodical, pamphlet or circular who shall knowingly permit parts in publication of any information or purported information about anything said or done before a grand jury which has not become a public record.

Other bills along the same line passed by the Senate provide that the subject to be discussed shall be announced to the grand jury and that thereupon any one directly interested may withdraw. It also provides habeas corpus proceedings may be instituted by a person indicted.

# BANDIT'S VICTIM ACCUSES LABORER

Broasco Carabino Waylaid, Is Beaten and Robbed in Lonely Street.

SAN FRANCISCO, Feb. 23.—Waylaid in a lonely section of the city in the darkness of the early morning hours, Broasco Carabino, a merchant of the Ingleside section, Carabino claims to have recognized his assailant, and later identified Frank Griffin, who was arrested by the police. A pedestrian heard Carabino moaning as he passed by Cortland street, and found him bleeding in the roadway.

Officers Mitchell and Chamberlain were summoned and the victim told of having walked along Cortland avenue to Bliss street, where he was suddenly confronted by a footpad who struck him with a heavy wooden club and, after feeling him took a ring valued at \$75 and \$50 in cash.

After being taken to the Mission Hospital where he was revived, Carabino declared that Frank Griffin, a stevedore of 255 Ellis street, had committed the crime. The officers found Griffin in bed and on his being positively identified by the injured man, he was charged with robbery and assault with a deadly weapon.

# ANTI-ANNEXATION FIGHT STILL ON

Oakland Chamber of Commerce Militantly Active Against Measure.

The fight for the purpose of defeating the Wolfe annexation bill is still being actively kept up by the Chamber of Commerce. A. A. Denison, secretary, now being busy gathering all available data bearing upon the evils which would ensue to Oakland, and other east bay cities, in the event of the annexation of Greater New York, is also keeping in close touch with the situation at Sacramento.

"It is a fight to the finish," he said this morning. "All loyal Oakland men and women will keep up the fight until we are safe."

"Investigations conducted by the Chamber of Commerce has disclosed the fact that the total amount of authorized bonded debt of the City and County of San Francisco is \$75,165,800, the total issued bonded debt being \$17,700,000, and that the San Francisco would like Oakland to free her from such a load."

In view of the fact that New York has been cited as an example of the economies effected by the borough system of government, Denison this morning quoted the following from the new International Encyclopedia: "The expenses of Greater New York are much larger than were the combined expenses of the various component municipalities before the consolidation. The increase in the first year after consolidation amounted to \$15,000,000. This is due largely to the creation of more salaried offices and to increases in salaries. The salaries paid are the highest prevailing in any city of the world."

## Women and the Board of Education.

Years ago THE TRIBUNE came to the conclusion that women should be represented on the Board of Education. Experience and closer observation have confirmed that view. A large majority of the teachers are women and more than half the pupils in the schools are girls. The sex problem is continually encountered in school administration. Wisdom and propriety both dictate that the women teachers should have a member of their own sex on the school board with whom they can talk freely and in whom they can confide without reservation. The same is to be said of mothers of children.

Also women are entitled to representation on the Board of Education as a matter of elementary justice. This fact is being recognized even in conservative England. It was long ago acknowledged in New England and other older sections of this country. In the recent past Mrs. Myra Knox was a member of the Oakland Board of Education for several years. Her efficiency was never questioned. She was finally eliminated by political intrigue, however, and since that time the mothers of pupils have had no voice or representation in school matters.

The various organizations of women should unite in demanding at least one member of the school board. They should insist on their inherent right to be represented in that body, and if they do make a united demand the right will be conceded to them. In our opinion they will do the school department a service by insisting on this right; that it will be conducive to good morals and better administration if women are represented on the school board.

It is an old saying that the renegade is the bitterest of all enemies. Oakland is finding out that it is true. The city is being betrayed and insulted by men she trusted.

At the last election a bond issue of \$1,500,000 for the improvement of San Diego harbor was authorized by a vote of the people. It is now urged that the bonds should not be issued because the harbor dues and dock rents of San Diego are insufficient to meet the interest and redemption payments. That is, it is claimed that commerce should come to a port before facilities are provided for handling it. When Oakland wanted a channel dredged around the Brooklyn basin it was objected to because large ships did not enter the basin to load and discharge. The answer, of course, was that they could not enter because there was no deep water channel. The reason why a channel was necessary was turned into an argument against dredging one. Such are the contradictions of the human mind. If the water front of San Diego were provided with adequate facilities for handling sea traffic it would not need to be improved and she would have a large income from port dues. But people who want to find fault and who seek for grounds of objection insist upon putting the cart before the horse. They insist that shipping shall come where there is no channel way and no docks and wharves at which to discharge cargoes. Liverpool was made the great port of England, next to London, by providing docks and a channel way for ships to reach them. Docks and wharves are useless unless ships can reach them, and it is senseless to expect that wharf and dock dues can be collected when there are no wharves and docks. As well one might expect to reap grain from land that had never been plowed or seeded.

Senator Eddie Wolfe's expressed contempt for Oakland's "measly" water front and for the business and inhabitants generally of this city merely indicates his temper and state of mind. But if he has such a contempt for us, why is he so anxious to annex us? If he despises this city and its people, why does he want to bring us into the political communion to which he belongs and to which he is congenial if he does not adorn. However, it is possible that the contempt he cherishes for the people of Oakland is the fruit of his association with Albert H. Elliot. If he has taken Mr. Elliot for a fair sample we do not greatly blame him. But it makes the mystery of why he should want to annex us all the darker.

It is amusing to compare the different objections urged against the pending reciprocity between Canada and the United States. Mr. James Rolph, president of the San Francisco Chamber of Commerce, is fearful that it will destroy California's barley trade. A Vancouver statesman says it will ruin the fruit industry of British Columbia. Hon. Miles Poindexter, who is to be Senator from Washington, thinks it will be disastrous to the lumber industry of his State. A Minnesota Congressman says it will fill the wheatfields of the northwest with tares and Canada thistles. In Canada the Conservatives are saying that it will put agriculture and manufacturing in the Dominion on the hog, and Hon. Lyle Young of Iowa says that it will put the American hen out of business entirely. The Ohio Cornrowers' Association says it will work havoc to American cornrowers, while Hon. Augustus P. Gardner of Gloucester, Massachusetts, insists that it will drive all the fish thousands of miles from Cape Cod. Hon. Champ Clark agrees with the British Tories that it is the forerunner of annexation and the dismemberment of the British empire. "What fools these mortals be!" If they are not fools they talk amazingly like fools.

The dispatches say that Senator Lorimer's speech in his own defense moved some of the Senators to tears. It is safe to say that Senators Root and Cummins did not fail to sympathetic weeping. However, we would like to know whether Uncle Shelby Cullom, Lorimer's colleague, dropped a tear in commiseration of Lorimer's plight.

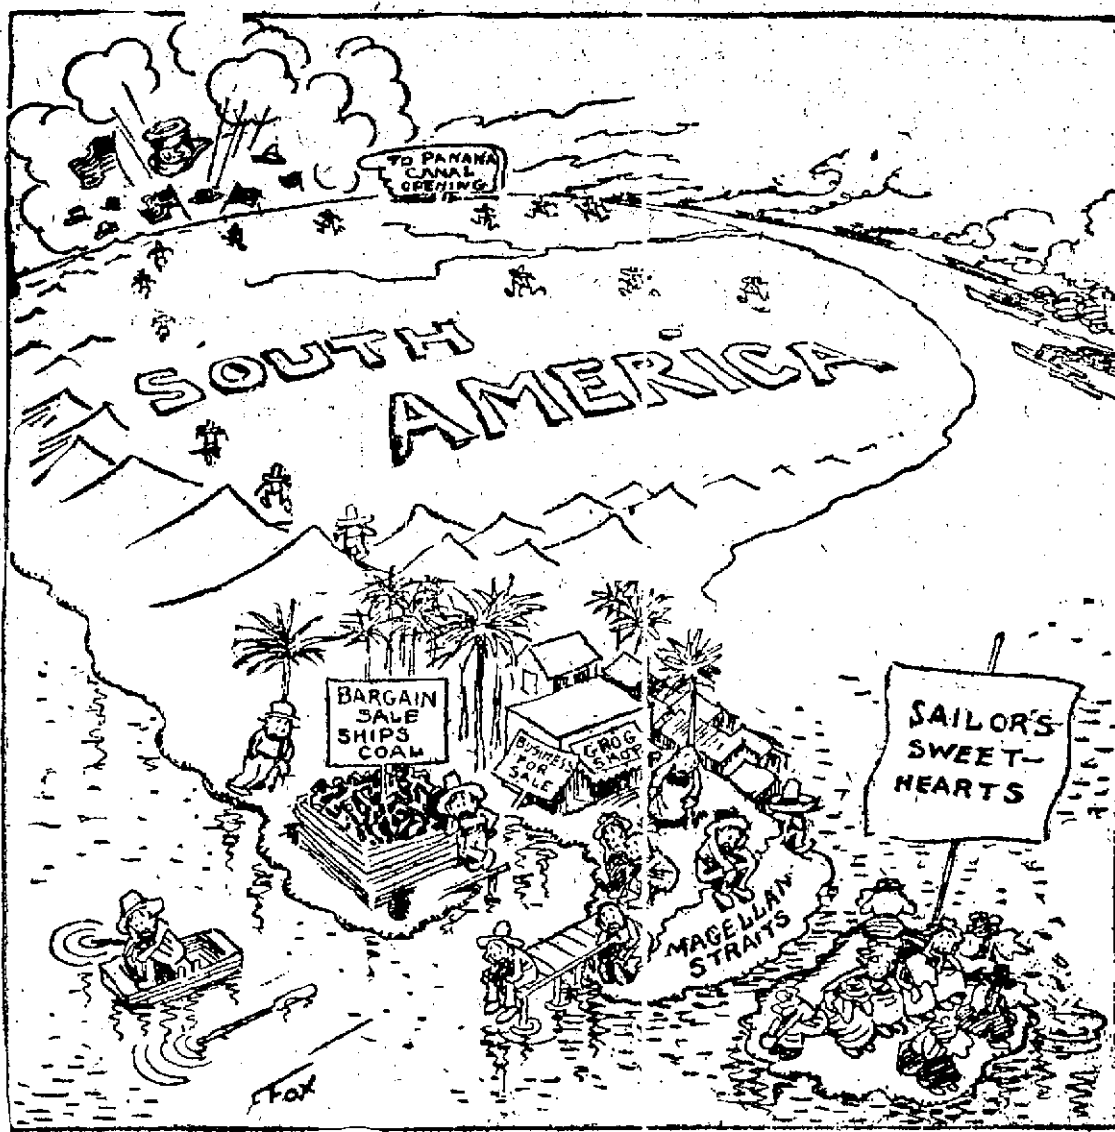

## Russia and American Hebrews.

President Taft has addressed himself to the task of inducing the Russian government to accord Hebrew American citizens the same rights of travel in the Moscovite empire that are accorded other American citizens. Presidents Cleveland, Harrison, McKinley and Roosevelt all exerted themselves to mitigate the intolerance and injustice with which the Russian government treats Jewish American citizens, but in vain. At the Russian frontier Jewish Americans, whether native-born or naturalized, are turned back. They are not allowed to enter the Czar's dominions. They are not permitted to visit their kindred or hold personal communion with their coreligionists in Russia. In short, the Russian government treats every Hebrew from America as a spy or a conspirator. He may be a man of great wealth and large business interests vouched for by the American State Department and officially credited to our ministers and consuls abroad, but he must not cross the line of Russia, not even to see his dying relatives or to relieve the distress of his kindred.

This attitude of the Russian government is insulting to the American people. It is not only an exhibition of barbarous bigotry, but it is an affront to a friendly nation.

It is in keeping, however, with the outrages, wrongs and insults heaped on the Jews in Russia. A persistent effort is being made to impoverish and drive Jews from the Russian empire. They are, for

## Opening of Canal to Be Sad Day for Certain Locality

bidden to dwell in certain sections of the country, to hold land or engage in many kinds of business. Their homes are invaded and their property seized. They are not allowed to hold commissions in the army and are grossly discriminated against in the universities. In every vocation of life they are gripped by the iron hand of persecution and oppression. The courts will not give them redress and the police agents of the Czar treat them as wolves treat lambs.

It is not unnatural therefore that the Russian officials should look upon every Jew as an enemy. Russian cruelty and tyranny have done all they could do to make every Jew in the world hate Russia and loathe the hideous despotism which her government exemplifies. For many years it has been the policy of the Czar's ministers to make life unendurable for Jews in Russia. The Hebrew population is being steadily driven out of the country by relentless persecution, hence the Russian officials feel that every Jew from America has been given every provocation to be an enemy of the Russian government.

Nevertheless our government owes a duty to its Jewish citizens. It also has its own dignity to sustain. We do not discriminate against any class of Russian citizens in this country, and it is not right that Russia should discriminate against any class of American citizens who desire to enter her territory, whether for business or pleasure. It is to be hoped that President Taft will succeed in pulling down the barrier of prejudice erected in Russia against Hebrew American citizens. As long as that barrier is permitted to stand our government is flouted and a class of American citizens subjected to injustice and contumely by a foreign nation. Our government should not relax its efforts till American Jews are granted the right to travel in Russia on the same terms that other American citizens are permitted to travel in that country.

Senator Bailey says he is against reciprocity with Canada because he is opposed to putting raw materials on the free list. His speech in defense of Senator Lorimer would indicate that the Illinois Senator is included in the raw material he desires to protect.

According to the report of the recent German census the total population of the empire is 64,896,881. Prussia's population is 40,157,573. The area of Prussia is almost exactly that of the combined area of New York, Pennsylvania and Ohio, which contain only a little more than half as many inhabitants as the Prussian Kingdom. Yet New York contains the second largest city in the world and Pennsylvania's metropolis contains over a million and a half people. Ohio has one city of over half a million inhabitants and Pennsylvania another. Besides, there are Buffalo, Cincinnati, Rochester and other large cities in the three States named. During the last forty years the population of Prussia has increased faster than the population of New York, Pennsylvania, Ohio, although Prussia has received no immigration and has sent forth thousands of emigrants. The population of New York, Pennsylvania and Ohio has been enormously augmented by immigration, but the natural increase in Prussia has more than offset the increase in the three big American States. A century ago Prussia contained only 1,000,000 inhabitants, but her territory has been much enlarged since. She now contains more inhabitants than France.

## Christianity's Finest Product

By REV. GEORGE W. WHITE,  
Pastor First Methodist Episcopal Church.

Text: "Till we all come in the unity of the faith, and of the knowledge of the Son of God, unto a perfect man, unto the measure of the stature of the fullness of Christ."—Eph. iv:13.

Rev. Geo. W. White.

### THE PLAN OF GOD.

It is the commonly accepted scientific doctrine that all nature is working toward perfection of type. This is evolution.

The Bible declares that man is the highest product of God's workmanship. The Psalmist declared: "When I consider thy heavens, the work of thy fingers, the moon and the stars which thou hast ordained, what is man, that thou art mindful of him, and the son of man that thou visitest him?" As though at first glance these material things far exceeded man in importance and power. Then he answers his own question by saying, "Thou hast made him a little lower than the angels, and hast crowned him with glory and honor. Thou madest him to have dominion over the works of thy hands; thou hast put all things under his feet."

This would indicate that the evolution of the perfect human type is of far more importance than anything else in all that God has made.

Joseph Cook, the great Boston lecturer, once said: "When God said, 'Let us make man in our image,' his plan was pointing not to man at his beginning, but to man at his climax."

### MEANS TO THIS END.

The greatest mistake ecclesiastics have ever made is to assume that God ordained the church for its own good and glory, as an institution. He only cares for the church as an agency for transforming human character. This shows the utter fallacy of that type of church which aims only at building up a great organization, and is careless as to the character of the people entering its membership. The larger such a church becomes, the more detriment it is to the true cause of religion. The true church holds up the highest standards of character and life. In grace, as in nature, the advancement of the type depends upon the perfecting of the individual. It can not be done in mass.

It is strange that men who look for perfection in other lines of life decay in the spiritual life. It does not mean completion.

"The finished scholar" is not one who can not learn more, but one who has formed the habit of constant study.

The master mechanic is not the man who knows all about mechanics, but the one whose master motive is to learn still more. Edison was so absorbed in some of his investigations that he forgot the time set for his marriage.

### SINGLENESS OF PURPOSE.

The greatest of the apostles, within a short time of his death, gave as the keynote of his marvellous life: "Not as though I had already attained, either were already perfect; but this one thing I do, forgetting the things which are behind, and reaching forth to the things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus."

This states the great law of the perfecting of the type of Christian; and the true Christian is man at his best estate.

## HE FORGOT---WE REMEMBER

At the funeral of William E. Dargie of the OAKLAND TRIBUNE on Monday last, many the silent prayers that were said and many the unbidden tears that were shed by those whom he had befriended.

Rev. Dr. William C. Pond, who officiated, paid an eloquent tribute to his memory, in which he said: "Others can speak of him in his public career, of his influence in the politics of the State, his success as the proprietor and manager of a great daily, his qualities as a business man and a leader of men. I find it to be my privilege to speak of him along the line that runs higher than these—to speak of him as a friend. And we, who never were among

those who approved the public policies of William E. Dargie, nor the politics of his paper, take off our hat to those kindly sentiments. After the destruction of our printing plant on the never-to-be-forgotten April 18, 1906, William E. Dargie forgot all the uncomplimentary things we had said of the politics of his paper, extended to us the hand of good fellowship and offered to issue The Star from THE TRIBUNE office on terms to suit our pocketbook, which was empty. "One touch of nature." As he "forgot," in our distress, so let us, in his death, remember! Peace to his ashes; sympathy for those nearest and dearest to him.—San Francisco Star.

## Timely and Interesting Topics

The Medical Record editorially commends the results accomplished by the Society for the Suppression of Unnecessary Noises and says that its work is one "in which members of the medical profession can but take a deep interest. They should employ all the means in their power to assist this humane society in its excellent work." It adds that "the Fourth of July racket was practically suppressed last year in this city, largely as a result of the society's efforts, and incidentally with the blessing of stillness was a reduction in the number of casualties and a positive saving of life, the accident having fallen from 552 in 1909 to 185 in 1910."

Since the recent destruction by fire of the Missouri capitol at Jefferson City, a good-sized boom for St. Louis as the capital has been launched. Favoring the change, the St. Louis Globe-Democrat says: "This is a modern metropolis, the largest city of the Mississippi valley and

the largest west of the Mississippi river. It would take great pride in becoming the final, as it was the first, capital of what is one of the foremost states, and one with unsurpassed resources and prospects. The more the idea is examined by the citizens of Missouri the more it will impress them as the best that can be proposed in regard to this important matter, which is now one of emergency."

Baltimore is making a strong bid for the Democratic National convention in 1912, newspapers, commercial organizations and prominent citizens pulling together to land what they consider a fat advertising prize. Mayor Mahool favors having the city government at Baltimore proposed subscription list with \$25,000, so that the rallying cry can be "Baltimore will give twenty-five thousand. How much will you, as a citizen, give?" As a convention hall it is thought that, with slight changes, the Fifth Regiment armory will serve nicely.

## RUSSIANS IN SCOTLAND

Thirty-five thousand subjects of the czar are hard at work north of the Tweed, Poles, Letts and Lithuanians working the coal and iron strata of the west of Scotland and they have been there since 1894, when the Bairds of Garscherrie introduced them to break a strike.

After all, it is but a return visit, for Scotland, during nearly three centuries, sent some of her best blood across the North Sea to Poland and at a later period to Russia itself. Scots went as soldiers, they crowded in as traders, for in those days the sea offered greater facilities than the road and the path to the Baltic ports was easier and the welcome greater than the highway that led to England. Some of the descendants of these ventures still remain in the land of their adoption, retaining their Scotch surnames. They are readily traced, for they carried with them a document, known as

the birth brief, detailing their origin, a duplicate of which is still to be found in what is known as the propinquity registers of Scotland.

The name of "Peter the Painter" is equaled in the first half of the seventeenth century by a Scotsman who entered the Polish cavalry and who is constantly described in Scotch documents at Baitels Gordon, alias "Steelhand." From the same part of the country came Peter the Great's right hand man, the Laird of Auchtermuchty in Buchan, and the Jacobite rebellion drove a Scotch naval officer into the position of governor of Cronstadt. The Lithuanians bear a good name. The children speak English, with a Lanarkshire accent, but the elders largely keep to themselves and marry among themselves. They have a priest and a weekly paper of their own, *Ranapponis* (the Worker), and maintains their national customs.—London Graphic.

## FIGHTING WHITE PLAGUE

The statistics of the National Association for the Study and Prevention of Tuberculosis have just been published, and they are significant as showing what a widespread awakening of the public conscience there has been in regard to the white plague. According to the report just issued no less than \$15,000,000 was spent in the United States last year in the crusade against the white plague, almost double the amount expended in the previous year.

As an assurance that this vast amount of money has not been wasted one has only to note how widespread has been the public education on this subject. A few years ago the popular attitude of mind toward tuberculosis was that it was a dread disease that was fatal, in some mysterious way, to carry off a certain

proportion of human beings; that there was little use in trying to escape it and that if the disease once got hold on a person there was no use in fighting.

At least the campaign of education has taught us all better than that. We know that the prime weapon against tuberculosis is cleanliness, and so we find, enacted through the popular will, in practically every municipality, ordinances against expectoration in public places, and regulations looking to the prevention of the spread of the scourge.

It is important that every community should do its share in this titanic battle against the white plague, and in this warfare which means so much for the benefit of the human race we are sure that Buffalo will be found, as it has been in the past, always to the fore.—Buffalo News.

## CONVICTS AS FARMERS

At the Colorado state penitentiary at Canon City the prisoners have worked outside the prison for the past four years.

Some fifteen hundred men have been employed on ranches and garden tracts leased by the prison, in constructing a water system for Canyon City, and on public highways anywhere from one to one hundred and fifty miles from the institution. Few escapes have been made in spite of absence of bars or manacles, and most of the few who got away were caught or came back of their own will. About one hundred miles of splendid mountain road, half of it blasted through solid rock, and the value of the farm products raised give back to the state more than the \$255,000 for the maintenance which it appropriated two years ago. On the other side, the men improve in many ways and

most of them who are paroled go direct from the work camps with no prison manacles to forget. No depredations or misconduct have been charged against the camps.—Survey.

## This World's People

Police Constable Woods, of the southwestern police court, London, has obtained 800 convictions in cases of cruelty to horses.

Mrs. Ann Speed, of England, who has just celebrated her 101st birthday, travels to the market at London every week with a basket of eggs.

Sir Arthur K. Wilson, the first sea lord of England, is known as the man who has never taken a holiday.

## 20 YEARS AGO IN OAKLAND

The 11-year-old daughter of Edmund Rockhill, of Forty-third and Linden streets, has been missing from her home for two days. A peculiar fact in the mystery is that she did not take a hat or shawl with her when she left.

Porter Myron Chaffee, an East Oakland real estate dealer, died today at his residence, 1145 Twenty-third avenue, of heart failure. He was 62 years old and came to Oakland in 1883. He leaves a fortune estimated at \$100,000, a widow and four children, Mrs. Lucinda Austin, Mrs. Jennie Hoyle, Mrs. Lulu Henderson and Grant F. Chaffee.

Lottie F. Chapman, wife of Edward F. Chapman, treasurer of the Pacific Press Publishing Company, died yesterday at 1501 West street.

Some months ago a client of H. L. Adams pawned his watch in San Francisco for \$25. Six months later he went to redeem it and the pawnbroker asked him \$17 interest. Adams went across the bay today and recovered the watch, paying the legal rate of interest, amounting to \$3.

The following residents of Oakland are traveling out of town this week: Mr. Dr. C. H. Moore, Miss Sadie Clark, Miss In-Cook, Charles Hendrickson.

Such a storm swept over Central California the last two days as has not been known for many years. The bay is very rough. The following Alameda residents have announced their intention of crossing the bay in order to experience the rough weather: Frank Woodrum, E. A. Randlett, Fred Hagen, W. H. Rank, J. A. Taylor, Harry Williams, Frank Bost, H. Maleseta, Will Dittmar, W. H. Foster, John Sansome, M. Polito and many others.

Simonton, Mrs. M. Sides, Mrs. A. M. Tammen, Miss Lella Corroll, Miss E. Steele, Thomas Rowell, Miss Mabel E. White, Mrs. Alfred Barstow and daughter, Grace, and Rev. J. B. Rutter.

The wedding of Miss Laura Henshaw, daughter of Franklin Henshaw and Hall McAllister, will take place next Thursday in Boston.

Oakland Union No. 624 gave an entertainment last evening in which the following took part: George A. Carter, Mrs. M. Moore, Miss Sadie Clark, Miss In-Cook, Charles Hendrickson.

# SET A QUICK PACE NOW AND WIN AUTO MARCH 22

Did You See the Automobile Races? Did You Develop the Speed Mania? Can You Apply It to Your Campaign? The Swiftest Pace Wins

## SIXTEEN GRAND PRIZES

\$1850 Chalmers Touring Car with top and glass front.  
\$1450 Regal Touring Car with top and glass front.  
1911 Flanders 20 Automobile with full equipment.  
1911 Flanders 20 Automobile with full equipment.

\$425 Benj. Curtaz & Son's Piano  
\$350 Kimball Piano  
\$300 Hauschildt Piano  
Trip to New York City  
Trip to Mexico City  
Trip to Yellowstone Park  
Trip to Vancouver  
Four Gold \$35 Watches

If you saw the automobiles races yesterday we are sure that you are more anxious than ever to win your own car. No need to go at the breakneck speed you then witnessed, but just to know that you are able to cover the ground at such a pace must be delightful.

If you own your own car you can set your own pace.

### A UNIVERSAL DESIRE.

It seems to be an exceptional person today who does not long to own and Automobile. Everyone we know who can possibly afford to buy one does so. Some who cannot afford it go so far as to mortgage their homes to accomplish this end.

It's all very well to laugh as we read

While has a Flanders, and o'er the hills he glides  
Mamma has a Regal and every day she rides,  
Papa has a Chalmers and sets a pace that's hot,  
And Squeezem has a mortgage on the whole swift lot

But this expresses a truth that has its painful side. We know that it is awfully hard to do without an Auto when you want one so badly, but you know as well as we do that there is no sense in mortgaging the home to possess one. Now here we are with an offer that makes it easy for you to realize the dream which has haunted you for many a long day.

### YOU CAN OWN YOUR OWN AUTO WITHOUT SPENDING A CENT.

That's a fact, and a most alluring one to the nice, normal, fun-loving person. If you are one of these you should embrace the opportunity held out by THE TRIBUNE. Enter the Contest, or if you are in it already don't stand around wondering what the others are going to do. Do something yourself—something that will make the others open their eyes when it is all over. Go out and talk to all of your friends something like this:

'If you give a year's subscription to the paper in my favor you will be poorer by only a few dollars, and richer by being provided each day with a paper which is conceded to be the newest, breeziest, most instructive, entertaining and up-to-date paper on the coast. I shall be richer by the possession of a Chalmers Touring Car. If every one of my friends will stand by me my success is assured. Will you be the one to break the chain, or will you kindly weld its links closer with a year's subscription?'

### MOST WILL RESPOND PROMPTLY.

If you talk in this way you will find that most people will respond to your call promptly. Promptness is a great thing just now. After Saturday the rate of votes will diminish at an alarming rate.

Gather your subscriptions while you may, old time is still a-flying. There is no way of pushing Saturday further away. It's at the very end of the week as it is, and you simply can't shove it over into the next week.

Here's the nearest you can come to that.

If you receive any subscriptions after the office is closed on Saturday evening, you can mail them to the Contest Department, and if they bear the date mark they will be counted at the big vote rate, even if we do not receive them until Monday.

### OUT-OF-TOWN CANDIDATES.

Out-of-town candidates may mail their subscriptions at any time Saturday night, and when received at the Contest Department the full rate of the BIG VOTE offer will be issued on them.

### PRICE AND VOTE VALUE OF SUBSCRIPTIONS. TO FEBRUARY 25TH ONLY

	Price.	New Subscribers.	Old Subscribers.
Three Months	\$ 1.95	1,000 votes	500 votes
Six Months	\$ 3.90	3,000 votes	1,500 votes

## WORLD SENDS BEST TO OAKLAND FASHION SHOW

Bewildering Display of Feminine Finery  
Will Be Made Next Week in  
Local Stores

New fashions in bewildering display will hold the center of the stage at the joint spring opening of the Oakland merchants on March 23 and 24—next Thursday, Friday and Saturday. Every style or gignator in the great cities of the East and Europe has sent representatives to the show with which home merchants will surprise the women of this city next week.

The opportunity to see just what will be the prevailing note of the new styles of spring and summer will be such as to gladden the heart of every woman who takes one of those days in which to make a tour of the downtown shops. The merchants have been saving their choicest goods for the display and each of the late shipments which have been received this week seems fairly to outdo all others previous in dashness, beauty and variety of fashion.

### WINDOW DISPLAYS

The window displays at that time will in themselves be a liberal education for those who are looking for style indications. The fairest latest and most charming of the spring goods will be shown under the skillful manipulation of experienced show window designers. At night the pale lights of pale blues and purples and the richer hues of silk and embroidered draperies will brighten and glow under the soft illumination. A small army of men will be employed in the arranging of this feature of the opening alone.

Tints and colors of every shade of the rainbow as usual will be shown, but it is widespread among the elect that every shade of coral from the pale rose to deep glowing red, will be the most frequently seen in trimmings and the Frenchy touches of color used on white or dull colored garments this season. It is much seen on the white marquisette dresses and waists which bid fair to take the place of the flimsy lingerie garments this year, and in piping and finishes on silk and chiffon creations.

### BLUE CLOSE SECOND.

A beautiful dull shade of blue is a close second to the coral tones in the new showings. Oriental embroidery with all colors red, black, blue and dull colors are combined in a distinctly new garment for white and ecru marquisette gowns and chiffon jumpers heavily embroidered with white and colored beads are among the most expensive novelties which have arrived recently.

In the department of tailor made suits, severely man-tailored effects are predominant. Some are shown with flat silk braids on collar and bottom of jacket and some have wide sailor collars faced with silk or satin. The skirts are in nearly every instance strictly plain and scant in width.

### PANTALON SUIT.

Something absolutely new is the pantalon suit which will make an appearance on the occasion. It is already being shown by one Oakland firm and has excited much interest among those who have had the opportunity to see it. In the showcase and on the living model which is one half of the combination may be worn with either the usual skirt or the pantalon skirt as desired.

And the dainty and shifty garments which are legion and which have tried their name in tell of their variety would find the task altogether too much. Suffice it to say that they are daintier and lovelier than those of any other spring opening since spring openings came into being. Each year it seems more and more wonderful that next year's styles and fabrics can be any more charming than those of the present year, and each year the impossible is accomplished, the miracle is wrought and the designers and manufacturers turn out products that surpass all former attempts.

### VARIETY OF MATERIALS.

Materials are worthy of special mention too, for never have they been shown in such designs and such variety as this spring. In the matter of designs, bordered patterns have the preference, and are shown in everything from fifteen-cent lawn to handsome silks. In variety they have a range from sheerest chiffon-

weaves to heavy ramie linens as coarse as burlap.

In the various lines of dress accessories every sort of beautiful scarf and shawl is shown. Purses of the newest fashion have long handles which allow them to hang even with the edge of the wearer's skirt. Coral buckles and strings of beads are prominent garnitures for millinery costumes.

Many of the coats for summer wear are of satin, made full length. Black is the most popular color, and embroidered in self-tones colors of gold is very frequently used to adorn them. Some rich garments of calico with heavily embroidered bands weighting the garment and giving it substance to particularly charming.

### FIRMS TO EXHIBIT

Oakland firms which will take part in the three days fashion show next week are:

H. C. Capwell & Co. Abrahamson & S. Wood & Co. G. Moschely  
M. Fleckman & Co. Dayton & Co. fitting  
Manheim & Muzor  
Coastway & Co. S. H. Jones

## FOR THE PUBLIC

New Formula Cures Cough, Colds, Bronchitis and Hoarseness in Five Hours

Much is being done in these days to stop the ravages of consumption, but probably nothing has been so effective as teaching the public how to break up a cold and cure coughs and bronchitis with simple home mixed medicine. A laxative cough syrup, free from whiskey, is the prime need. A cough indicates a tamper in the system and the s in turn tion and congestion and the s in turn poison in the system. A tonic laxative cough syrup aids the system of congestion, while relieving the painful coughing. Get the following and mix at home. One-half ounce fluid wild cherry bark, one ounce compound essence cardiol and three ounces syrup white pine compound. Shake the bottle and take twenty drops every half hour for four hours. Then one-half to one teaspoonful three or four times daily. Give children less according to age. Cut this out and save it for some friend.

## PLAN BIG DRY DOCK FOR CANADIAN NAVY

VICTORIA, B. C. Feb. 23.—Announcement is officially made that the British Columbia Marine Railway Company will build a dry dock to cost \$3,000,000 at Lang's Cove, Esquimalt. The dock will be 500 feet long and 100 feet wide. Associated with the Esquimalt firm in the enterprise is a well-known Clyde shipbuilding firm. It is the intention of the shareholders to equip a modern shipyard for the construction of the cruisers and destroyers for the Pacific squadron of the Canadian navy at Esquimalt.

ALBANY, N. Y., Feb. 23.—That milk dealers in New York will raise the price of milk from 9 to 12 cents a quart after January 1, 1912, when the new health regulations requiring it to be put in bottles and certified, go into effect is predicted by State experts who are preparing material in favor of a bill to create a milk commission with power to regulate the business and fix prices. The backers of the measure hold that the State has the power to regulate the milk business as provided in the bill and cite the United States Supreme Court decision in the Illinois grain elevator or warehouse case to substantiate this contention.

# THE LOZIER

## Is Still the Champion Stock Chassis Racer of the World

No contestant in the Panama-Pacific Road Race yesterday touched the record made by Teddy Tetzlaff's Lozier in its double Santa Monica victory this year.

## THEREFORE

The Lozier's time of 73.27 miles per hour still stands as the World's Stock Chassis Record, and also as the American Road Record for any type of car whatsoever.

For Endurance and Consistency the Lozier's performances in this season's road racing contests are unapproachable. Driven by three different drivers, the Lozier has this year won out of eight entries four of the biggest long-distance races held in America. It has also finished the four other races entered well up among the leaders, winning two second, one fourth and one fifth places. In three races it averaged better than 70 miles an hour.

These victorious Loziers have been strictly stock cars. They have attached, therefore, to every Lozier built their title of Champion Endurance Car of the World.

#### AGED VICTIM OF BULLET IS DYING

Physicians Abandon All Hope of Prolonging Life of Captain Maddison.

HAYWARD, Feb. 23. — Reports from the residence of Captain H. E. Maddison, the aged ship builder who was shot down in the hallway of his home on Castro street several weeks ago by A. Borrells, a ship carpenter, over alleged money matters, state that the aged man has no possible chance of recovery and that his death is but a question of hours. The physicians marvel at his strong vitality.

#### DERELICT CRUISER NO LONGER RIDES TIDES

LONDON, Feb. 23. — The French cruiser Richelieu, which for a fortnight had been drifting about, a derelict dangerous to navigation, found port today in the rocks off the Scilly Islands. The craft was sighted by the life saving crews who first thought that a trans-Atlantic liner had gone ashore; but when a lifeboat reached the scene the crew recognized the French fighter.

#### NO CHOICE MADE FOR UNITED STATES SENATORS

ALBANY, N. Y., Feb. 23. — Thirty-second joint ballot for United States Senator: Democrats—Sheehan, 68; Shepard, 15; Littleton, 3; Sulzer, 3; Hooper, 2; Kernan, 1; O'Brien, 1; Glynn, 1; Parker, 1; Carlisle, 1. Republican—Dopew, 60. Total vote cast, 151; necessary for choice, 76.

## Climate Failed; Medicine Cured

It has been abundantly shown that rest, fresh air, and good food, do help many persons suffering from tuberculosis. But, to be really honest, it must be admitted that the disease is seldom more than "arrested." Something more is needed.

Eckman's Alternative is a medicine made for the cure of Tuberculosis. It has cured this disease again and again. Often these cures have been effected where the surroundings were not ideal, where no intelligent care was taken of the patient, where money was scarce; good food and good cooking unusual—yet cures resulted. Now we argue and urge that Eckman's Alternative should be used, in every case of Tuberculosis, in addition to good, nourishing food, and fresh air, which we also

The facts—the evidence of cures that have been made—are interesting readings. A remarkable example is the case of a relative I have been saved from a premature grave, and feeling that my story would be of pleasure to others, I am now writing you a brief history of my sickness, which you are at liberty to use.

On December 1, 1905, I was taken with very much affected; my sputum was examined and tuberculosis was diagnosed. On December 1, 1905, was advised to go to Fort Worth, Texas. While there, an abscess in my right lung broke and was discharged. I was very weak and almost emaciated. My physician informed me that I must go to Colorado as quickly as possible.

On January 1, 1906, I left Fort Worth for Canon City, June, very feeble. After being there two weeks, my physician informed me that I could go home, as I was a feeble hopper. Two weeks later I returned home, weighing 103 pounds, the doctor had given me no assurance of reaching the

On the 14th of July I began taking Dr. Beckman's wonderful remedy for Consumption, and it being very highly recommended, I am stout a day I might as well try it. I have not had any more pain in my lungs, eat well, and have no more of my grain elevator. I have not an cough, and never before. I would be glad to give it to every person afflicted with Tuberculosis, I feel Dr. Beckman's cure."

Tribute to Chinese  
Inspectors.**

SAN FRANCISCO, Feb. 23.—That the inspectors of the fish and game commission have extorted thousands of dollars from the Chinese fishing companies of this state for a number of years, was the statement made today by Attorney Philip Walsh to the Assembly committee appointed to investigate the commission. In a specification submitted to the committee by Walsh, who is appearing as the attorney for the Chinese fishermen, inspectors E. M. McMillan, C. B. Woods, J. H. Davis and E. P. Pedlar are named as the men to whom money was paid by the Chinese for protection against arrest for illegal fishing.

Chu Che, manager of a Chinese fishing company, was the first witness examined. He testified that he gave \$500 at one time to Inspector McMillan on the latter's threat to arrest him.

Walsh, in his statement to the committee declared that Lu Can, another fish company manager, would testify that McMillan obtained an equal sum from him by the use of similar threats. He declared that Lu Can placed Inspector Davis on the payroll of his company at \$40 a month for several months just previous to April, 1906.

Assemblyman Frank L. Walker, chairman of the investigating committee, stated at the conclusion of the morning session that the accused inspectors had been discharged by the new commission.

Electric Company and Seize  
All Documents.**

ST. PETERSBURG, Feb. 23.—The police made a sudden descent on the offices of the Westinghouse Electric Company and seized all the books and documents relating to the St. Petersburg street railway. The affair has caused a sensation in French commercial circles.

The Westinghouse company obtained a contract for electrification of street car lines in St. Petersburg in December, 1906. Later the government imposed a fine of \$500,000 on the company for alleged failure to complete its contract. This was in October, 1907, and in the following month the government remitted the \$425,000 of the penalty. Since then the company experienced some inconvenience resulting from the announcement early in 1908, that the British Westinghouse Company would finance the St. Petersburg concern.

**OFFICIAL IN IGNORANCE.**

NEW YORK, Feb. 23.—"I don't know what this raid means any more than you do," said Robert Mather, chairman of the Westinghouse Company, today, when shown the dispatch from St. Petersburg. "The offices and works of the company are at Moscow."

He continued, "So that the raid cannot have any inconvenience to us. The fines imposed by the local Duma were sums withheld from contract payments for alleged failure to complete the work within the specified time. We contend that the failure was due to causes for which the city is responsible and which were outside our control."

NEW YORK, Feb. 23.—"One-Round" Hogan of California gained the popular reputation over "Knockout" Brown of New York in a ten-round bout at the Madison Athletic Club here last night.

Brown failed to make the showing he recently made against Ad Wolgast at Philadelphia. Backed by the reputation he earned in that fight, Brown was easily the favorite. But the first round served to raise Hogan several points in the estimation of the crowd.

It was a hard fight, but Hogan got to Brown as no other fighter has been able to.

When "Knockout" mixed, Hogan mixed with him and met him at every point. The Californian outpointed, outboxed and outlasted the hardy New York fighter, and the big house generally voted the laurels to Hogan when the last fight had sounded.

LORIMER CAUSES  
FLOW OF TEARSWas Lachrymose Shower in  
Senate Yesterday When  
He Spoke.

(From S. F. Examiner of February 22.)

(By JOHN TEMPLE GRAVES.)

WASHINGTON, Feb. 22.—Whatever the  
news may be, the day's sensation at the  
capitol was Lorimer's speech in his own  
defense.Incidentally, Lorimer had the greatest  
crowd of the Sixty-first Congress. Stand-  
ing room in the galleries and on the floor  
of the Senate and the crowds outside  
packed four deep as far in the Senate  
corridors as an open door could carry the  
sound of the speaker's voice.It emptied the House to a bare handful,  
and even Speaker Cannon did not remain  
to preside over them.Lorimer's speech richly fulfilled the ex-  
pectation of the crowd. Whether it made  
any profound impression upon the dis-  
tinguished and intellectual Senators cannot be  
stated.Lorimer's name has been linked for a  
decade with political corruption in Chi-  
cago. The evidence against him in the  
Senate is powerful, and some of the  
ablest Senators in America, sitting as his  
judges, have pronounced eloquent and  
logical verdicts against him. Other elo-  
quent Senators have defended him.

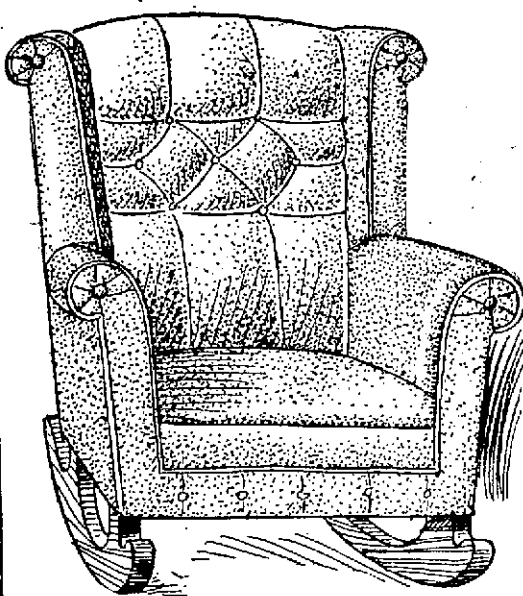

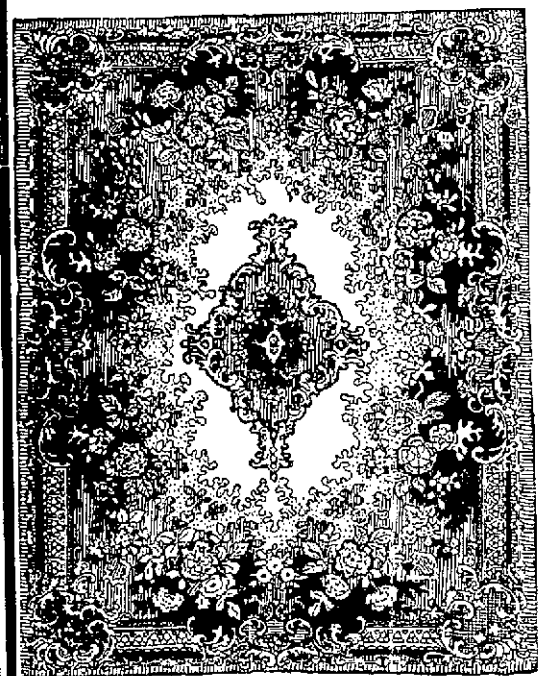

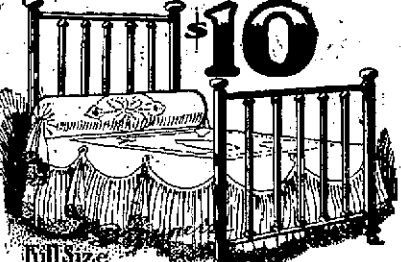

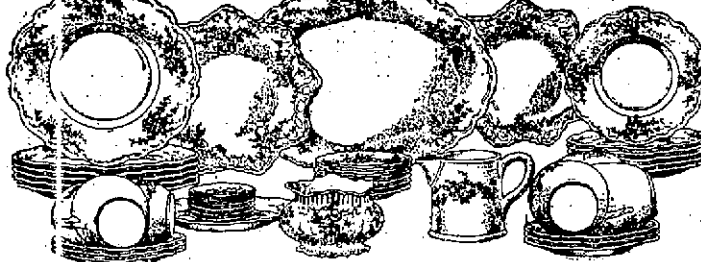

## MADE ARDENT APPEAL.

But when the genial-mannered, baby-  
faced statesman took his seat today after  
his five hours of sustained appeal, it  
would have been dangerous to those who  
opposed him to have committed his cause  
then and there to a vote of Senators  
and spectators.There seemed to be neither anger nor  
resentment in his heart—a patient saint  
suffering political martyrdom with a  
smile. Straight across the aisle from  
Lorimer sat Beveridge, who had stayed  
him on yesterday, and to the left sat Eli-  
hu Root, against whom, as it afterwards  
developed, all the calumnies of the Senate  
Lorimer's private resentment surged and  
rolled in bitterness and wrath.Lorimer spoke with notes, but with-  
out manuscript, and framed the most ef-  
fective part of his argument around the  
question, "Why did the Democrats vote  
for me?"By far the most effective part of the  
five-hour appeal revolved around this  
question. This was the lawyer's unequalled  
special plea.In a clear, bell-like voice Lorimer told  
the story of these Democratic votes and  
the causes. No prettier and more tell-  
ing batch of human nature stories ever  
appealed to an audience of any kind.One was of a friendship with "Hinky  
Dink" Kanna when the two were news-  
boys and bootblacks in the Chicago  
streets and "Hinky Dink" had saved the  
younger newsboy from the tyranny of a  
tough newsboy bully and redeemed for  
him the papers that the tyrant had de-  
stroyed for \$2.50.At this period Lorimer turned upon  
Senator Root and shouted:"A sum which the immaculate Senator  
from New York may look upon with de-  
cision and scorn, but which meant more  
to me in that scanty hour than the vast  
figures of the transactions he has  
handled for colossal wealth."Root leaned upon his hands and said  
nothing.

## CALL HIM FATHER.

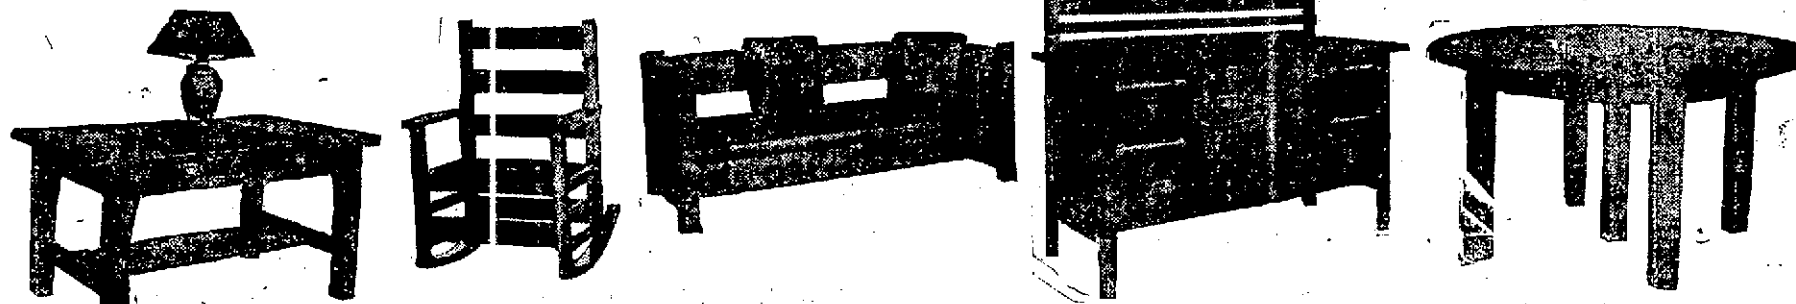

Lorimer linked with himself another  
Democratic vote by reason of coming  
to that vote's help at a time when his  
family and himself were literally suf-  
fering for food and clothing.He told of Manuel Abraham, the Jew  
(made much of by the prosecution), who  
had come to love him by reason of the  
fact that when Lorimer was a street  
car conductor and the other conductor  
had been riding Abraham's pack off the  
car platform, Lorimer had carried it  
always to the end of the line and be-  
came known as the one conductor who  
would carry the late Father.Lorimer had organized the Hebrew districts  
and secured for them the right to vote  
without mistreatment."I am introduced today in that Hebrew  
quarter," said he, "not as Congressman  
Lorimer, nor as Senator Lorimer, but as  
"The Father"—with all that beautiful  
name implies among these reverent peo-  
ple."Once more the accused senator turned  
with sudden fury to Elihu Root:"Does the great senator from New  
York know what that means? In the  
any class of struggling people in New  
York who call him "The Father?"

TO BE HISTORYBill Passed in House of Com-  
mons Destroying Ancient  
Right of Peers.LONDON, Feb. 22.—Premier Asquith  
was the recipient of a tremendous ovation from his supporters in the House of  
Commons when the Parliament bill,  
otherwise known as the veto bill, a  
measure designed to curtail the power of  
the Lords, was passed on its first  
reading by the government's full majority  
of 124, the vote being 351 to 227.The Nationalists first arose in their  
places, cheering wildly and waving their  
hats. The Liberal members quickly em-  
ulated their example. This exhibition  
of enthusiasm was repeated a few min-  
utes later as the Prime Minister quickly  
left the scene of his victory in his initial  
action against the Lords.The dominant note of the Unionist  
speeches in the debate was an invitation  
to the government to settle the matter  
by agreement. Frederick B. Smith, in an  
attack, accused the government of out-  
raging the convictions of half their fel-  
low countrymen on a matter that could  
never be settled except by consent.The Right Honorable George Wynd-  
ham also urged the government to ac-  
cept the invitation to settle the ques-  
tion by agreement. Sooner or later, he  
said, the opposition would repeal the  
bill. To these persuasions Winston  
Spencer Churchill, the Home Secretary,  
concluding the debate for the govern-  
ment, replied that the ministers would  
not have fifty supporters left if they  
agreed to enter such a conference now.  
He contended, as compared with theDYING VICTIM  
SHIELDS SLAYERLaborer Dies, Refusing to Di-  
vulge Identity of Man Who  
Attacked Him.SAN FRANCISCO, Feb. 22.—Murdered  
by a man whose identity he persisted in  
shielding, T. L. Ford, a laborer, died  
early this morning as the result of an  
early stab wound in the abdomen. Po-  
liceman Heaton found Ford at 11:45 p. m.  
lying in Stockton street, near Sutter. He  
was rushed to the Central Emergency  
Hospital, where he gave his name and  
said:  
"I am a stranger here, and but recently  
arrived from Seattle. I have not had any  
trouble with any woman and it was a  
man who stabbed me. I know who he is,  
but I will not tell."  
Ford was found in a doorway and was  
conscious but a few moments after reach-  
ing the hospital. So far no witnesses  
have been found who saw the quarrel,  
which resulted in the fatal stabbing.  
Detectives Gibson and McGowan are  
making every effort to learn more of the  
affair. The dead man was nearly six feet  
tall, about 40 years old, weighed about  
200 pounds and had red hair and a red  
mustache.The government's moderate  
proposals were the worst Toryism and  
no step would be neglected to carry the  
bill swiftly into law.The government did not fear the refer-  
endum as a check on a progressive legis-  
lation, but regarded it as a vicious sys-  
tem, especially unsuitable for this coun-  
try, and its adoption would lead to Jaco-  
binism, Caesarism and anarchy.CONDUCTORS LAY
